Corner to Corner Tour

WE WILL BE HOSTING TWO KNOW YOUR RIGHTS TRAININGS PER LOCATION ACROSS COLORADO

Know Your Rights about Medicaid

What do I do if I get kicked off? What do I do if I cannot find services? What do I do if I applied but nothing happened? What do I do if I need more help with daily care? As a Medicaid client you have rights and we will explain them and how you can help enforce them.

Know Your Rights about Participating in Government

If you have a disability and need accommodations you have rights. We will tell you how to ask for and get your needs met. All citizens have a right to be heard and to get information you need to make decisions. We all have a right to know what our government is doing.

Why are we doing this?

We push ALL governments to include the disability voice when designing rules or programs that affect us. We use what you tell us on these visits to improve our advocacy work at the Capitol and with the state government. These trips tighten our bond with local partners and expand our reach.
